## EDUCATION

---

**University of Central Florida | Burnett Honors College**  
*Digital Media B.A. (Track: Web Design), Spanish Minor*

**Expected Graduation:** Spring 2026  
**GPA:** 3.9

## SKILLS

---

Figma  
Canva  
Spanish  
mySQL

JavaScript  
AngularJS  
React Native  
MaterialUI

Bootstrap CSS  
Python  
ExpoGo  
PHP

## WORK EXPERIENCE

---

### Strategic Communications Intern | NASA

**May 2024 – Aug 2025**

- Designed 8 internal website pages using Figma, ensuring consistency and enhancing the overall look, feel, and navigation. Brought these designs to life using AngularJS and Bootstrap CSS to build a dynamic, responsive website
- Filmed and edited videos in Canva to create informative, engaging content shared externally and internally
- Drafted and compiled biweekly employee newsletter to inform the workforce of updates, mission status, leadership messages, and announcements

### Document & Media Assistant | Siemens Energy

**May 2023 – Dec 2023**

- Created and implemented workflows in SmartSheets, streamlining events and automating sheet population from forms, leading to more efficient operations
- Utilized MS Office tools to enhance presentations meeting successful implementation of time constraints and impactful delivery

## LEADERSHIP EXPERIENCE

---

### President, Design & Code | UCF

**May 2024 – May 2025**

- Strengthened the on-campus web development community by hosting workshops, networking events, and panel discussions, leading to a more active and engaged student body
- Led a team of 7 officers in coordinating events, managing resources, and ensuring effective and consistent communication among the team
- Expanded the club's influence by partnering with tech-related organizations and individuals both on and off campus, building community engagement and collaboration

### KnightHacks Design Team Member | UCF

**Jul 2024 – Dec 2024**

- Created a high-fidelity prototype for the club website redesign using Figma, ensuring designs align with the provided format for the website to craft a seamless user experience
- Developed color palette and branding guidelines for the website, refining creative skills and visual cohesion
- Designed a neon outline of the club logo in Adobe Illustrator, which was used across social media platforms and incorporated into the website redesign theme

## PROJECTS

---

### ECHO | Figma Mobile Design

**Aug 2024 – Sep 2024**

- Designed a user-friendly mobile app for music streaming using Figma, creating six interactive screens to illustrate both functionality and aesthetic of the application
- Incorporated prototyping to simulate user interaction and dynamic screen transitions to improve testing and usability
- Applied mobile-first design structure and principles, optimizing each screen for use on handheld devices

### Gotham Site | HTML/Bootstrap CSS/Phaser.js

**Mar 2024**

- Developed an interactive Batman-themed website using these technologies, implementing a dynamic card gallery to display character images on one side and allowing users to flip the card to reveal character bios on the other side
- Integrated a browser-based mini-game using Phaser.js, similar to Space Invaders, to engage users and demonstrate programming skills using interactive gameplay
